Mexico Rocks and Robles Beach Snorkel & BBQ

Ambergris Caye is 27 miles long, and San Pedro is concentrated in only an 8 mile section. Robles is about 20 miles north of town. Our day to Robles begins as we make our way north along the coast of Ambergris Caye. Our first stop is to snorkel at Mexico Rocks, with its coral formations and colorful small fish. Then we head on to Robles, where we will stop on a pristine stretch of beach where the reef almost touches the island. Here you can snorkel the reef or explore the deserted beaches in both directions. While you are snorkeling or exploring the expanses of beach, our guide prepares a delicious Beach BBQ for you. Lunch includes BBQ chicken, roasted potatoes, pasta salad and brownies. After lunch you will have time to relax in a hammock under the shade of a coconut tree or go for another swim. Then it will be time for us to begin our return journey along the coast back to San Pedro. Includes: Lunch, beer, sodas, rum punch and snacks.

altun ha mayan ruin tour and jungle spa visit

On this adventure you head out the backside of the island toward the mainland. Soon you will be winding through the Northern River where you are likely to see Orchids, cactus and a rich variety of birds and indigenous animals. At Bomba Village, you will then board a private bus that takes you through several quaint villages as you make your way to the Mayan Ruins of Altun Ha.

There, our guide will give you a tour of the ruins and you'll have some time to explore. Once you have worked up a healthy appetite, we will head to the Maruba Jungle Spa for an exotic lunch including fish and wild game. After lunch you can take a refreshing dip in their pool or indulge in incredible treatments such as herbal facials and mud baths (for those that wish to be pampered). Then enjoy the swift boat ride back through the river and home to San Pedro. This Adventure Includes: Beer, sodas, rum punch and snacks and departs at 8:30 am, returning at approximately 5:00pm

Flourishing during the Classic Period of Maya civilization, the true ancient name of this site is unknown. "Altun Ha" is a Mayan translation of the nearby village named "Rockstone Pond." The extent to which the site has been cleared and restored makes it easy to imagine its past glory and wealth as a major ceremonial center. The archaeological site covers about one square mile of area, with at least 500 visible structures.

lamanai jungle river adventure

Begin your day with a scrumptious breakfast of fresh fruit, muffins and fresh squeezed orange juice as you wind your way through the Northern River and enjoy the early morning sights and sounds. At Bomba Village, a private buss will take you through jungle, villages and sugar cane fields to Tower Hill, where your tour of the New River begins. As you make your way towards Lamanai, you will encounter animals indigenous to the area such as river otters, turtles, crocodiles and monkeys.

Once at Lamanai you are served a tasty picnic lunch of local fare. Then you hike through dense jungle and explore the ancient Mayan temples that majestically perch on the water's edge. At the end of the day, as you make your way back to San Pedro, you will realize that your experience to Lamanai will linger with you as a truly Beyond Ordinary experience.

Lamanai is the Spanish historic name for Lama' an/ayin, which means "submerged crocodile." The Royal Ontario Museum directed a archaeological research project at Lamanai between 1974 and 1986 during which over 940 structures were mapped. A long, unbroken sequence of Maya occupation at Lamanai occurred through Preclassic and Classic times, beginning by roughly 1500 BC.

Includes: Breakfast, lunch, beer, sodas, rum punch and snacks. This adventure departs at 7:00 am and returns at approximately 5:30 pm.
